

LOUISIANA LEGISLATIVE SUPPORT

U.S. Senator Mary Landrieu (D-LA)

"InfantSEE® is an excellent example of a wellness program that improves public health while driving down future health care costs," said U.S. Senator Mary Landrieu (D-LA). "Louisiana doctors offering this no-cost exam are doing a great service to their community. I urge all families to take advantage of this free service. Early detection and treatment is the key to addressing vision problems that may affect a child's ability to read and learn."

U.S. Senator David Vitter (R-LA)

"This very worthy program is helping ensure that children across Louisiana are provided with access to quality vision care and preventative screenings," said U.S. Senator David Vitter (R-LA). "Undetected vision problems can have a serious effect on the wellbeing of a child. The InfantSEE® program will provide infant screening services to help diagnose and detect potential problems before they become serious and that's something that all parents should take advantage of."

U.S. Representative Steve Scalise (R-LA)

"Detecting problems at an early stage gives kids the best chance in making sure they have healthy vision for the rest of their lives, and I applaud InfantSEE® and Louisiana optometrists for their work in providing these important services," said U.S. Representative Steve Scalise (R-LA). "I encourage families to participate in this program to make sure Louisiana children have access to quality health care services so they can get a good start in life."

U.S. Representative Anh "Joseph" Cao (R-LA)

"InfantSEE® serves an incredible purpose in preserving our children's sight," said U.S. Representative Anh "Joseph" Cao (R-LA). "Their battle versus eye disease is critical to informing parents of the preventive care necessary to keep our children healthy. I commend their efforts and encourage the families of the second district and the entire state of Louisiana to take advantage of their services."

U.S. Representative Charlie Melancon (D-LA)

"All children should have access to quality vision health care, regardless of their families' circumstances," said U.S. Representative Charlie Melancon (D-LA). "Early treatment of eye and vision problems is critical to giving a child a healthy start in life and preparing him or her for success in school and beyond. I commend the dedicated Louisiana optometrists who are donating their time and skills to help children during InfantSEE® Week. I encourage all parents of young children to safeguard their children's future by having their eyes examined by a professional through this unique opportunity."

U.S. Representative John Fleming, M.D. (R-LA)

"The mission of the InfantSEE® program has been a critical component in the ongoing fight against eye disease," said U.S. Representative John Fleming, M.D. (R-LA). "Their work to focus on the importance of both detection and treatment has saved the gift of sight for countless children. They are an invaluable resource for children with vision problems and as a physician and a father; I encourage families to take advantage of their services."

U.S. Representative Rodney Alexander (R-LA)

"I commend the efforts of the InfantSEE® program to make infant vision protection and eye health care accessible to the residents of Louisiana," said U.S. Representative Rodney Alexander (R-LA). "Effective vision care should begin in this stage of development, and I am proud of InfantSEE® for providing this invaluable service to aid the families of the 5th Congressional District."

U.S. Representative Bill Cassidy, M.D. (R-LA)

"Thanks to the hard work of the optometrist community, many Louisiana children will receive the eye and vision care they need through the InfantSEE® program", said U.S. Representative Bill Cassidy, M.D. (R-LA). "I commend those who contribute their time and talents to the InfantSEE® program, and encourage parents to take advantage of it."

U.S. Representative Charles W. Boustany, Jr., M.D. (R-LA)

"As a doctor, I saw firsthand the importance of focusing on health at an early age, and InfantSEE® is just the kind of program that's helping children across Louisiana," said U.S. Representative Charles W. Boustany, Jr., M.D. (R-LA). "I encourage families to ensure their young children receive this invaluable care."
